*Journal of the Royal Statistical Society*  
Series B, *Statistical Methodology*

24 September 2007

Professor Robert Stine  
Department of Statistics  
The Wharton School  
University of Pennsylvania  
Philadelphia, PA 19104-6340  
USA

Dear Professor Stine

**JRSSB submission B6215R2: "Alpha-investing: a new multiple hypothesis testing procedure that controls mFDR" (with Foster)**

Thank you for sending the latest revision of your paper. I am pleased to inform you that your paper has now been formally accepted for publication. I have informed the Executive Editor of this. He will now see the paper through to publication. His contact details are

Dr Martin Owen  
Royal Statistical Society  
12 Errol Street  
London EC1Y 8LX

Email: m.owen@rss.org.uk

Please refer to the copyright assignment terms for the paper on the form that he will send you with the proofs. It would be helpful if you could send, either by email as attachments or on a PC-format disk by ordinary mail, the following files directly to Dr Owen: the Latex source code; separate files for each figure (preferably in .eps or .ps format); and the accepted version of the paper, in pdf or postscript.

I also enclose a letter from Dr Owen about the *Royal Statistical Society* web site, on which code and datasets associated with your paper can be made available. The site is intended to be a valuable resource for the statistical community, so please make the effort to prepare material associated with your paper, if you think that those who read the paper will find it useful.

Finally, I would like to congratulate you on your fine paper.  
Thank you for sending it to JRSSB.

Yours sincerely

A handwritten signature in black ink, appearing to read 'A Wood'. The signature is written in a cursive, flowing style with a large initial 'A'.

Andy Wood  
Joint Editor, JRSSB
